

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently amended) An inhaler for dispensing doses of medicament from a container under user activation said ~~inhaler~~ inhaler comprising a body including a mouthpiece through which said medicament is dispensed and a cap which can be placed in a position to substantially occlude said mouthpiece where said cap is attached to said body by a strap which pivots from said body, said cap being arranged to slide on said strap such that said cap must translate away from said mouthpiece prior to the pivoting of said strap.
2. (Previously presented) An inhaler for dispensing doses of medicament from a container under user activation as claimed in claim 1 wherein said mouthpiece projects from said body.
3. (Previously presented) An inhaler for dispensing doses of medicament from a container under user activation as claimed in claim 1 wherein said cap both occludes said mouthpiece and overlies the projection of said mouthpiece.
4. (Previously presented) An inhaler for dispensing doses of medicament from a container under user activation as claimed in claim 1 wherein said inhaler is a plastic material wherein said strap and said body are molded as a unit.
5. (Previously presented) An inhaler for dispensing doses of medicament from a container under user activation as claimed in claim 1 wherein said strap underlies said body and substantially follows the contours thereof.

6. (Previously presented) An inhaler for dispensing doses of medicament from a container under user activation as claimed in claim 1 wherein said container is pressurized.
7. (Previously presented) An inhaler for dispensing doses of medicament as claimed in claim 1 wherein said inhaler is a metered dose inhaler.
8. (Previously presented) An inhaler for dispensing doses of medicament as claimed in claim 1 wherein the cap is attached to said strap by means of a lug.
